

**Department of Planning and Zoning**  
**Objectives**  
**FY 2004-2005**

**Department Mission:** *To create a common vision for the future of Alexandria through a proactive community planning effort that involves all stakeholders in a consensus building process and ensure that all new development reflects the community's vision.*

**Objective #1: Long-Range Planning**

**Define the City's vision by ensuring a balanced future community with quality development, protected environmental resources, vital business activity and comfortable neighborhoods.**

**Objective #2: Outreach**

**Create a true consensus building capability with both the business and residential communities by providing opportunities for education and participation**

**Objective #3: Development Process**

**Provide an environment for high quality development with clarity and certainty for the participants**

**Objective #4: High Quality Service**

**Provide high quality service to the public through improvement to internal operations**

**Objective #5: Inter-Agency Planning**

**Ensure that major City-wide initiatives are integrated and coordinated with the community's long-term vision**
